

Laurel Wreath

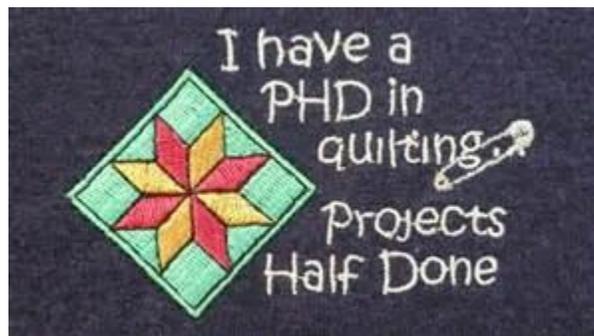

Volume 32 • Issue 3 Newsletter of the Rhododendron Needlers Quilt Guild January-February, 2015

Dear Fellow Quilters and Members of RNQG,

Hope you are getting excited about our upcoming quilt show. I know I am. It is time to enter your quilts. It wasn't hard to do. Finish up those quilts, raffle basket or something to sell at the boutique. Also it is time to decide how you will help. Sign up sheets will be at our next meeting and we still need people to white glove among other things. It was from coming to a quilt show that I became a member. Let's show them what RNQG can do.

Stay warm, healthy, and happy in 2015.

Zelayna Rauch
President

Please forward submissions to the newsletter to Lhancock42@aol.com. The deadline for the next edition of the Laurel Wreath is February 20, 2015.

**Marian Bressel Website: fabritique.com
Lecture / Trunk Show: "Fabric Trip to Africa"**

Join tour guide Marian Bressel on a textile tour of the "plateau continent".

A quilter since the mid 1980's, Marian was uninspired by the selection of fabrics -- mostly calicos -- available in American shops during this era. While vacationing in Africa in 1991 she was exposed to the vibrant colors and designs used by the natives and knew she'd found her muse. She brought many yards back to the U.S. for her personal use, but eventually decided they should be made available to other American quilters.

During the evening lecture, Marian will discuss the different types of fabric manufactured in Africa, the origins of the designs found on the fabrics and the significance of fabrics in African culture. This will be a *tactile* textile experience -- many fabric samples will be passed to members of the audience!

**Marianne L. Hatton Website: mariannehatton.com
Lecture / Trunk Show: "Jill of All Trades, Mistress of Some"**

Hear the evolutionary tale and see the works of a quilter from a distant continent!

Raised in South Africa in a family and culture that encouraged and practiced handwork, Marianne Hatton can barely remember a time when she didn't have a needle in hand. She began sewing her own clothing at an early age and as a young adult taught Home Economics in South African high schools.

Her transition to quilter occurred some time after she moved to the US. Her first ventures in this country were in the specialty wedding cake and fabric import businesses. These were ultimately abandoned when she realized how much she missed teaching and creating quilts. For more than 20 years she has focused her energy on teaching classes in quilt making. Her goal is to enable students to put their own stamp on their quilted creations and to coax out the latent talent for design that many of us don't know lies within, while teaching solid construction techniques for the lasting legacies our quilts may become.

Marianne's quilts are usually grounded in tradition and some are free form designs. She rarely knows what the outcome of a quilt will be when she begins, preferring the "mystery" as the quilts grow, change, and evolve towards a surprise ending. The planning happens in progress and is what keeps her interested and excited. Her book, "Simply Dynamic Sampler Quilts," was published by the American Quilters Society in 2010. It showcases what Marianne refers to as the "next generation of sampler quilts."

Guest Speaker: Pat Ferguson
Topic: Zentangles

Website: patfergusonquilts.com

Zentangle®...you've likely heard the word before, coined in late 2003 by Rick Roberts and Maria Thomas. You may have even seen samples of the art form, intricate-looking designs, typically in black and white. But do you realize that you have all the skills needed to create your own? If you can write your name, you can create a zentangle! The method has a few very simple steps that are easy to learn and follow.

Pat Ferguson (aka the "Zen Quilter") is a longarm quilter and Certified Zentangle® Teacher who uses this wonderful art form to inspire her machine quilting. According to Pat, "I could not draw until I created my first Zentangle, and then I was hooked! Even if you think you can't draw let me prove you wrong!"

During this program, Pat teaches the basics of Zentangle and how it can influence your machine quilting or possibly encourage you to begin to machine quilt. You will also be inspired by the "zen" quilts she brings for your viewing pleasure!

Pat's passion for quilting began in 1980 and has evolved into a lifetime ambition. She enjoys trying new techniques and incorporates them into her custom work and classes. She became a Certified Zentangle Teacher in 2010 and subsequently authored the "Zen Quilting Workbook" which includes patterns created by Pat, amazing designs created by her students, and teaches the reader how to produce unique continuous line designs that are easy to execute!

Detail of "Dahlia" Quilt
by Pat Ferguson

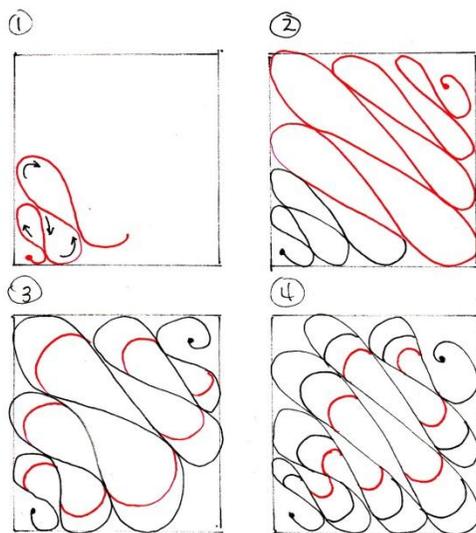

* **Please Note:** There will be a mini-workshop during this program. Each participant will draw a 3 1/2" zentangle over the course of the evening. If you would like to try your hand at zentangling, you must purchase the "Zentangle Starter Kit" from Pat -- \$6 fee to be paid that evening. Advance sign-up is requested so Pat will know how many kits to bring. You may sign up at guild meetings now through February or by email to programs@rnqg.org. If you prefer to be an observer, a projector will allow you to watch Pat's work. You may also walk around the room to see how participating guild members progress in their designs.

Demystifying Zentangles®

According to the official Zentangle® website, "Zentangle® is an easy to learn method of creating beautiful images from repetitive patterns". Pat Ferguson (our guest speaker for the March guild meeting) adds, "It requires no artistic skills. It is therapeutic, non-technical, helps break creative block and takes on its own form with each person's individual style."

Pat is a pioneer in the area of "Zen Quilting". She moved Zentangles® from their origins of black ink on white cardstock into the world of quilts by allowing the art form to inspire designs for her machine quilting.

The March guild meeting will have two segments. The first part of the evening is a trunk show of Pat's quilts. During the second half of the evening, Pat invites guild members to try their hand at the art form. She will demonstrate how to draw several basic Zentangle® shapes (such as the one shown below).

Workshop participants will claim seats at tables placed near the front of the room. To join in the workshop, you must pre-register so Pat will know how many "starter kits" to bring for the evening. Each kit contains all the tools and supplies needed for drawing Zentangles®. The \$6.00 fee for the starter kit must be paid to Pat that evening.

Individuals who choose not to join the workshop are free to get up to observe the progress of participants or can simply watch Pat's pen strokes which will be projected on a screen.

Registration for the workshop closes at the February guild meeting! To register, please send an email to programs@rnqg.org with subject "Zentangles". Make sure to include your name in the body of the email!

Show & Tell: The Winners Are...

With the show behind us, it's time for the makers of the winning quilts to take a bow!

Use this opportunity to

- take a close look at the quilts deemed "best" by the judge and show-goers...
- hear the stories behind the quilts...
- ask those, "how did you..." questions...

and simply celebrate the art that binds us together!

May 20, 2015**7:30 - 9PM Italian-American Club, Walpole****Guest Speaker: Kathie Beltz****Lecture: Studio 180 Tool Demonstration and Trunk Show**

Do you struggle to get all of your quilt blocks the perfect size? Are you looking for a way to eliminate mathematical calculations when changing the size of a block? Do you want to forget the theorems you learned in high school geometry?

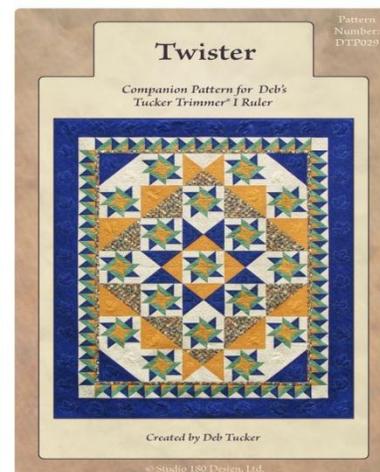

If the answer to any of these questions is "Yes!" then this program is perfect for you. The focus of the evening is the set of quilting tools created by Deb Tucker of Studio 180 designs. Each tool was engineered to simplify measuring, cutting and trim down of basic quilting blocks -- half square triangles, flying geese, and square-in-a-square units among others -- making it easy to create beautiful quilts without a lot of fuss.

Kathie Beltz is a Certified Instructor of Studio 180 Design FUNdamental Tools who is "totally addicted to quilting." Her quilting addiction began in 1995, advanced to teaching in 2004, and became critical when she took the final leap into judging in 2007. Her own quilts have won numerous awards around the country.

The presentation will demonstrate use of Studio 180 Design tools and include a trunk show of quilts.

May 21, 2015 9:30AM – 4 PM**All About Quilts****Kathie Beltz****Project: Twister**

This project constructs the pieced border units at the same time as the pieced block units - definitely a two for one deal! Deb's construction methods and Tucker Trimmer I and Tucker Trimmer III tools let you construct all units without cutting or piecing triangle shapes and then gives you the added benefit of trimming down for super high precision. The large setting pieces can easily be trimmed with the Tucker Trimmer III tool. A very simple project to make!

LIBRARY NEWS

Hi All,

I have been busy reorganizing the Library over the holidays. This entailed bringing all the books home with me and checking to see if they were all there. I had to chase some down that have been out for a while (I am talking years in some cases :) so please make sure when you take a book out that you return it in good time. I also went through and removed about 85 books. These are books that are older, out of date, just plain dated or not taken out in years. I am giving them to the Boutique for sale at our upcoming show. Bonnie Ritchie, Nancy Pond, Esther O'Connell and Judy Garfunkel came out and helped me re-number the books. They also looked at the books I was removing to give me input on the books I had chosen to remove. That was a BIG help, so "Thank You."

I am going to give this new list to AnneMarie, our Web Master, who will put them on the website. You should be able to access the list by Title, Author or Subject. I will have the same list in print at the meetings.

At this point, I want to remind you all of the Library Rules.

1. You must be a current RNQG member to sign a book out.
2. You may have only 2 books at a time.
3. You should Return your books within 2 months. If it is a new book to the library, please return it in 1 month.

If no one is at the library table to help you check out, please take the card from the book and write your Name, Phone#, Date (month and year). File it in the box by number.

Thank you,
Lisa Steinka
RNQG Librarian

P.S. To everyone I spoke with about outstanding books, please remember to bring them to the meeting. If you aren't coming, please send them in with a friend.

ZENTANGLES

If you would like to try your hand at Zentangling during the March guild meeting with Pat Ferguson, please send an email to programs@rnqq.org. Pat needs to know in advance how many zentangle kits are needed that evening. There is a \$6.00 fee for the kit which will be collected at the meeting.

Zentangling with a teacher can be thought of as “directed doodling”. Take it from a non-artist who has tried Zentangling — it is both relaxing and FUN!

Member Feedback

Last month the RNQG meeting was a source of disappointment for me. As a member of RNQG, I have made and donated many quilts in the name of the “comfort quilt” project. I always felt that I wanted to make something that would bring comfort and be a source of peace to someone in need of a hug. The quilt was supposed to brighten someone’s day. I felt that the donation should be appealing and pleasant to look at. I wanted my donated quilt to surround someone going thru a tough time as a reminder that they were loved, thought of and cared about. This very same quilt may even hug a family member long after their loved one has passed as a soothing reminder of their loss... a “comfort quilt” to help them cope with their grief.

I was horrified to think that the presentation and representation of this project has turned into a numbers goal. Since when did we start producing something that you slap together using your crappy, ugly fabric, without a care that points don’t match? Is this under the pretense that the recipient is dying, doesn’t care and won’t know the difference? Where is compassion and pride in the “comfort quilt project”?

Shame on us if this is how we are being represented.
