

## 3D EPP??? Yes!

In this hand-sewing class we will create three-dimensional patchwork objects. Make holiday decorations, baby toys, or just *pleasingly intriguing things!*

Explore fussy cutting opportunities to create beautiful kaleidoscopic effects. Embellish with buttons and beads. The items shown in the photo to the left were made from just three different patches!

### Supplies:

- At minimum, two or three fat quarters of fabric, contrasting in color. You can bring more fabric choices, especially if you want to try fussy cutting motifs from a patterned fabric
- Medium weight sewing needle. You probably have a selection in your sewing box. Everyone has their favorite. Julia prefers Bohin #9 long appliqué needles. She occasionally uses curved needles. Please don't shop unnecessarily.
- Regular sewing thread in a color that matches your fabrics
- Scissors
- Decorative buttons, beads, ribbon and tassels if you'd like to add embellishment. These can also be added after class, once the object is completed

### Optional aids to have available -

Needle threader, reading glasses, light

Since the workshop is via ZOOM, Julia will supply additional pre-cutting instructions (template cutting) prior to the class for triangles, squares and diamonds.
