BONUS JAR OPENER WORKSHOP

Instructor: Jacqui O'Brien

Ann's Fabrics, 235 Turnpike St., Canton

November 14, 2026, 10–2

These practical jar openers are easy and super-fast to make. You can make one in under 10 minutes.

FOOD:
Consider bringing a snack or beverage. Please make sure your beverage is covered to avoid spills.

TAKE-HOME INSTRUCTIONS: Yes, there will be written instructions, but there are many YouTube videos that can be used as reference.

PREPARATION: Feel free to cut the squares ahead of time, but because these are so quick to make, advance preparation is not necessary.

SUPPLY & EQUIPMENT LIST:
Bring enough fabric to make two jar openers. We will be making 2 sizes for the Boutique, small and large. Each jar opener needs 2 pieces of fabric (outside fabric and liner fabric). So, if you can bring 4 pieces of fabric, see below for sizes.

Fabrics & shelf liner:

- Two fabrics for the outside.
- Two pieces of coordinating fabric (or the same fabric as outside for the lining).
    - Fabric pieces need to be either 7 in square (large jar opener) or 5 in square (smaller opener)
- Two squares of shelf liner. Shelf liner will be provided by the instructor. Colors available below, feel free to coordinate the shelf liner with your chosen fabrics.
- Sewing machine in good working order
- All typical sewing supplies
    - Thread, needles, rotary cutter, small ruler (6 in sq is ideal), scissors, etc…
- Marking pen or pencil; the marks will not be visible once the jar opener is completed.
- Wonder type clips are better than pins

SPECIAL COMMENTS:
These can be made without the liner fabric, but it does help to use it as the shelf liner is grippy and it could grip to sewing machine base when sewing. With the liner, the shelf liner is sandwiched between 2 pieces of fabric.
